

A&J Catering Oxford 2020 Pledge

This is an England pledge

This commitment will be implemented by 2023.

1

Quick service, Food-on-the-go businesses, casual dining restaurants, workplace canteens and public sector food settings commit to increase the volume of veg they sell, aiming for two portions in every main meal while maintaining commitments to reduce waste (inspiration can be found in our Food Service Compendium)

This aligns with point 4 on the Commitments Framework

Commitment Details

Recreate recipes to include more vegetable wherever possible. We aim to achieve 10% increase in volume of vegetable served. Add more vegetarian dishes (sides and mains) to our existing menu. Create a bespoke Vegan Menu.

Monitoring

We will work with our chefs to get an increased amount of vegetables into our dishes. We'll also monitor spending on vegetables vs turnover ratio. We can track the number of Vegetarian/ Vegan items sold via our booking system Catersoft
