

Subway 2022 Pledge

This is a UK wide pledge

This commitment will be implemented by 2023

1

4. Quick service, Food-on-the-go businesses, casual dining restaurants, workplace canteens and public sector food settings commit to increase the volume of veg they sell, aiming for two portions in every main meal while maintaining commitments to reduce waste (inspiration can be found in our Food Service Compendium)

This aligns with point 4 on the Commitments Framework

Commitment Details

Ensure our menu encourages our guests to make better for you choices including: vegetable and salad ingredients will always be available across our menu. Subway commit to include and/or add vegetables and salads where appropriate into our menu portfolio. All of our salad boxes will provide at least one portion of the recommended five a day.

Monitoring

Subway will report and monitor each year using baseline data (June 2021-June 2022) from our procurement figures on total tonnage of vegetables and salads offered as a customisation option in our stores to monitor progress made.
