## TRAFFIC LIGHT SCORE ▲

Traffic lights are allocated from the same data used in the spider diagram profiles.

## SPIDER DIAGRAM ▲

The summary profile comparing Brakes, the average and 2023 leadership profile. The leadership profile is calculated from the best score from any company on each individual metric.

Scores closer to the outer ring of the circle indicates a company has both clear targets and reporting against those targets. Whereas the scores closer to the centre of the circle indicate lack of clear target or disclosure of data.

## PRODUCT VS SUPPLY CHAIN ▲

Companies are rated on two dimensions, product and supply chains. Ratings for this are calculated from scores on specific metrics related to healthy and sustainable products or to sustainable and equitable supply chains.
