

# Sustainable Restaurant Association 2017 Pledge

This is an UK wide pledge

This commitments will be implemented by  
October 2020

# 1

Quick service, Food-On-The-Go businesses and casual dining restaurants commit to increase the number of portions of veg they sell while maintaining commitments to reduce waste

**This aligns with point 3 on the commitments framework**

## Commitment details

We will continue to encourage members and the sector at large to do this, through our more veg and better meat and kids veg out campaigns from 2017, and future campaigns in the coming years.

## Monitoring

We ask these questions in our annual rating of members. We also collect data in our campaigns.
