### Commitment details

FCFCG Wales will work with the community growing sector in Wales to ensure that community growing spaces are available to all communities in Wales that want to work together to grow food. We will provide support and training to existing and emerging growing projects helping them engage more people in local food production and increase productivity. We will continue to raise the profile of the challenges faced by community based and small scale horticulture schemes and push for a more favourable policy, educational, financial and planning environment for sustainable horticulture.
