

Chefs@School

2018 Pledge

This is a Scotland-wide pledge

This commitment will be implemented by October 2019

1

We pledge to inspire and teach about vegetables in every classroom session that we undertake. We will focus on developing our healthy snacks workshop, creating 5 new recipes by March 2019. We will also develop and grow the Soupathon project, which supports children to make soup from scratch, whilst reducing food waste through the use of leftovers. We aim to teach these skills to 5,000 young people by October 2019 and will create 4 new soup recipes for that purpose, utilising easily accessible seasonable vegetables. We will work with partners to deliver educational workshops to children and teachers showing the cycle from field to plate.

This aligns with point 10 on the Commitments Framework

Monitoring

We will monitor all activities of our volunteers and be able to submit figures showing how many children took part in each of the projects until October 2019.
